SELLER REPRESENTS:

The Golden Retriever puppy that you as the buyer are purchasing from Golden Lake Golden Retrievers is in good health at the time the buyer assumes ownership. Great care has been given to each puppy to ensure the puppy is free of parasites, fleas, intestinal worms and ear mites. The above named puppy is current on shots and deworming. **The above named puppy has been examined by a licensed veterinarian and found to be in good health. Buyer is provided with health record from our Vet.** The puppy is being sold with AKC Limited Registration. I do believe this puppy to be of pet quality. The puppy is being sold on a spay/neuter contract.

The consideration of this sale shall be for the sum of \$2,800. Entire balance of \$2,800 must be received by seller prior to puppy leaving premises.

A non-refundable deposit was taken for the sum of \$300 which is applied towards the purchase price. Deposit is only refundable if Golden Lake Retrievers cannot provide a puppy. The remaining balance is due upon pick-up of the puppy at 8 weeks of age. If the buyer fails to follow through with purchase of the puppy, they understand that the deposit is non-refundable. **Golden Lake Retrievers reserves the right to refund the deposit at any time during the process if we feel the new family is not a good match for one of our pups.**

All pet/companion puppies include a health guarantee until the age of 2 years against genetic defects (hip, heart, eyes). Proof of defect must be submitted to Golden Lake Retrievers by a specialist in the said field of defect. Defect must be life altering for guarantee to apply. A hip rating of Mild or below from OFA must be proved for the hip guarantee to apply. Life altering heart defect would be a grade 2 or above heart murmur remaining after the age of 6 months old. **An innocent puppy murmur is not considered a genetic defect. Innocent puppy murmurs can take up to 4-6 months to disappear and are very common in large breed dogs.** If defect is valid, Golden Lake Retrievers will replace the dog with a puppy from a future litter. At no time will any money be refunded and we will not be liable for any vet bills. Owner is also allowed to keep the original puppy. This health guarantee is only valid if the pup is kept on a premium large breed adult formula food. It is recommended that the pup also be kept on Nuvet (nuvet-labs.com) Supplements until 1 year of age. The health guarantee is void if the owner allows the puppy to become more than 15 pounds overweight based on the AKC Golden Retriever standard. Golden Lake Retrievers has the right to have the dog examined by a vet of our choosing for a second opinion. Golden Lake Retrievers will not be responsible for any vet costs incurred by the buyer of this puppy. We do not guarantee temperament issues. All puppies leave our home with ample socialization and proper care. Training and care provides you with a wonderful dog.

THE BUYER AGREES:

The buyer agrees that the puppy will be examined by a licensed Veterinarian within 72 hours of receipt. If the puppy is determined to be ill, or if found to be unacceptable at this time, we will refund the full purchase price once the puppy and all AKC paperwork is returned to us in the same condition that the puppy left us. Golden Lake Retrievers/Robert and Beryl Frey will not be liable for any vet bills or expenses of any kind incurred while the puppy was in your care.

The buyer agrees to keep the puppy on a large breed premium dog or puppy food that is not above 29 percent protein. High levels of protein can cause rapid growth to a puppy which leads to joint issues in large breed dogs. Buyer understands that this is a condition for the health guarantee.
